

Idaho State Liquor Dispensary
Procurement and Distribution Division

DISTRIBUTION CENTER EXPANSION AND AUTOMATION PROJECT
UPDATE: NOVEMBER 10, 2008

The Idaho State Liquor Dispensary (ISLD) is in an expansion and automation program at its Distribution Center in Boise, Idaho.

The project has 5 phases:

1. Enlarge DC to 17,400 square feet to house Automated Storage and Retrieval System—**Status: Completed**
2. Selection and installation of a Warehouse Management System---**Status: Vendor selected (INTEK INTEGRATED SOLUTIONS, Snoqualmie, Wa) and integration underway.**
3. Construction and operation of a 9600 square foot mezzanine for an expanded bottle pick line. **Status: Complete and product being moved, possible commissioning December 1.**

Selection of a Material Handling Design consultant to assist ISLD and the Idaho Division of Public Works (DPW) in the preparation and evaluation of the AS/RS Request for Proposals. AS/RS will be a design build project---**Status: Request for Qualifications document has been released by Division of Public Works.**
